

PORTFOLIO

18 projects, 2018 to 2026.

Platforms, stores, AI agents and websites built by JOMos for clients and as our own products. Live links are included where a project is publicly reachable; the rest run inside client networks.

CONTENTS

Projects by type

Own products

DiveHub · Marketplace · 2026

MRAS Service Resources · WordPress Website · 2026
AMA CRM · CRM & Call Centre · 2018
Census Surgery · Healthcare Reporting · 2026

Jawahir — AI Customer Service · AI Customer Service · 2026

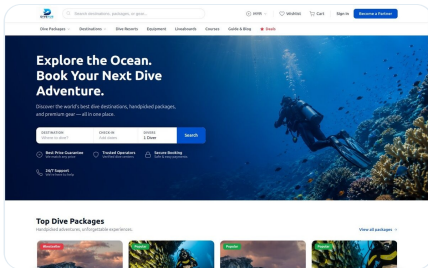

Vectus

Fleet Management · Client project · 2026

A bus and fleet management platform that tracks staff pickup buses in real time using the drivers' phones as GPS trackers, with route assignment, trip history and live monitoring for the transport team.

Stack: Laravel 12, Tailwind CSS, Alpine.js, Leaflet maps

Live: vectus.jomos.com.my

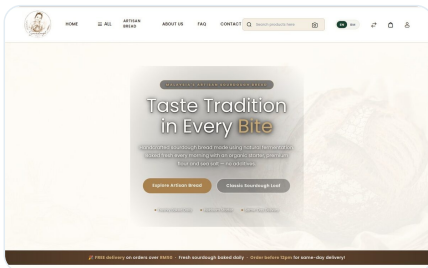

DiveHub

Marketplace · Own product · 2026

A marketplace for dive courses, dive resorts and dive gear in Malaysia, connecting divers with certified instructors, liveaboards and dive shops through one booking platform.

Stack: Laravel 12, MySQL

Live: divehub.jomos.com.my

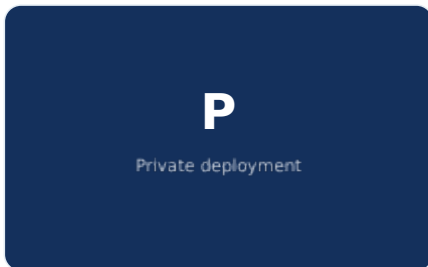

Sourdough.my

E-commerce · Own product · 2026

An online storefront for artisan sourdough products with a branded catalogue, cart and checkout, payment handling, order management and delivery or pickup options.

Stack: Laravel 12, Bagisto, Stripe

Live: sourdough.my

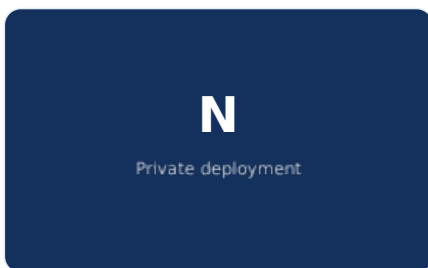

Praxis

Training Management · Client project · 2026

A training management system that runs programmes end-to-end: participant enrolment, pre and post assessments with competency scoring, multi-perspective evaluations and PDF reports with radar charts and certification grading.

Stack: Laravel 12, Bootstrap, Tailwind CSS

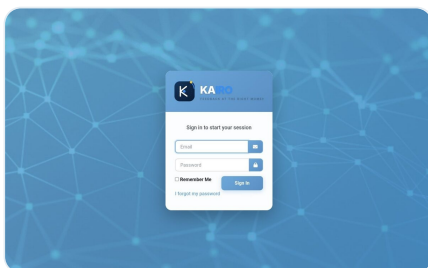

Nimbus

Gamified Learning · Client project · 2026

An interactive experience platform where trainers design mission-based activities such as photo and video submissions, quizzes and check-ins, with real-time leaderboards, team competitions and an organiser dashboard.

Stack: Laravel 12, Bootstrap, Tailwind CSS

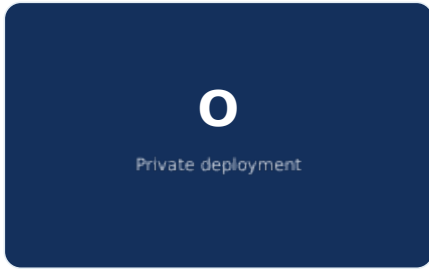

Kairo

360° Feedback · Client project · 2025

A 360-degree feedback platform used after training programmes to collect multi-rater evaluations and turn them into clear competency reports for participants and coaches.

Stack: Laravel 12, Alpine.js, PDF reporting

Live: kairo.coach2success.com.my

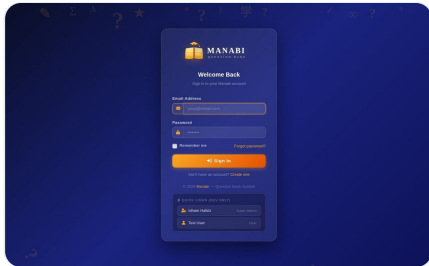

Orivo

AI Document Intelligence · Client project · 2025

An AI-powered document analysis system that reads long documents to extract timelines, highlight key terms, generate summaries and answer questions about the content.

Stack: Laravel 12, Claude API, Alpine.js

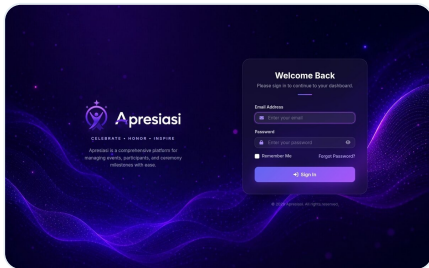

Manabi

Assessment Platform · Own product · 2026

A question bank and assessment platform for building, organising and delivering exam questions, with tagging by topic and difficulty and reporting on results.

Stack: Laravel 12, Tailwind CSS, PDF export

Live: manabi.jomos.com.my

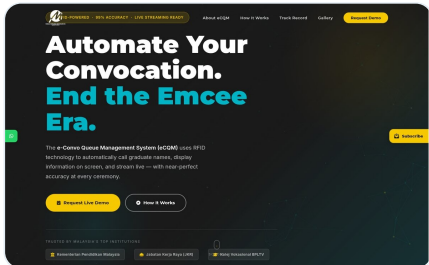

Apresiasi

Event System · Client project · 2025

A convocation and award ceremony attendance system that manages graduate check-in, seating and on-stage announcements, built to run reliably on a local network during the event.

Stack: Laravel 12, Livewire, Laravel Reverb (real-time)

Live: apresiasi.jomos.com.my

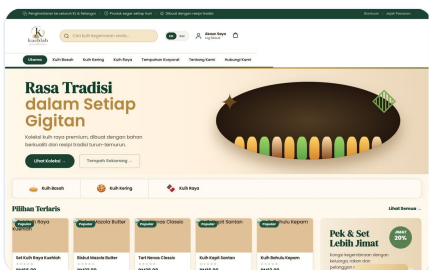

MRAS Service Resources

WordPress Website · Client project · 2026

A corporate website for MRAS Service Resources, specialists in convocation automation, built on WordPress with a custom layout, contact form and SEO essentials.

Stack: WordPress, custom theme

Live: mras.com.my

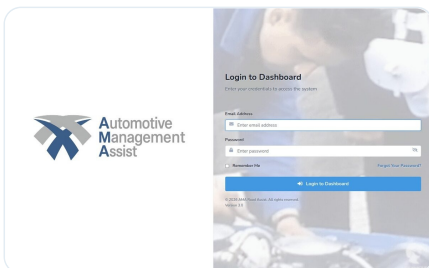

Kuehlah.my

E-commerce · Own product · 2026

A Malaysian kuih e-commerce store built on Bagisto, with a full product catalogue, checkout, payment and delivery workflow and an admin back office ready for heavy traffic.

Stack: Laravel 12, Bagisto, Stripe

Live: kuehlah.jomos.com.my

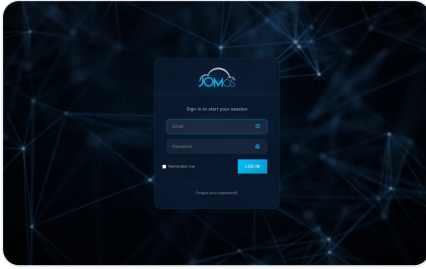

AMA CRM

CRM & Call Centre · Client project · 2018

A CRM built and maintained for Automotive Management Assist, integrated with their PBX for real-time call wallboards and reporting, plus WhatsApp and SMS communication.

Stack: Laravel 12, Laravel Reverb, PBX integration, Excel reporting

Live: crm.ama2u.com

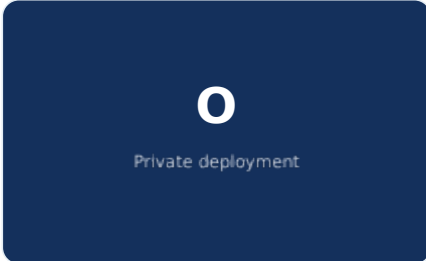

JIMys

Business Management · Own product · 2018

The JOMos Integrated Management System, our in-house platform for customers, opportunities, quotations, invoices, servers and one-click deployments across every project we run.

Stack: Laravel 12, Alpine.js, GitLab & DigitalOcean APIs

Live: jimys12.jomos.com.my

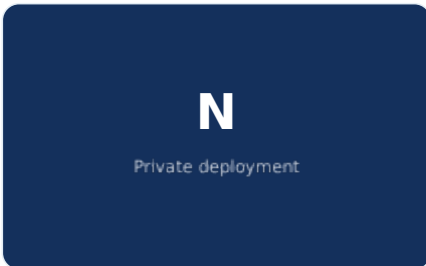

Oomrah

Travel Marketplace · Own product · 2026

A listing platform that helps travel agents publish and sell their umrah packages to pilgrims who want to compare options in one place.

Stack: Laravel 12, Tailwind CSS, Laravel Reverb

Nurivo

Healthcare · Own product · 2026

A web app that helps nurses plan their monthly shift schedules, built as a free tool for the nursing community in Malaysia.

Stack: Laravel 11, Tailwind CSS, Alpine.js

Census Surgery

Healthcare Reporting · Client project · 2026

A reporting system that turns surgical census data into ready-to-share Excel reports for a hospital department, replacing manual spreadsheet work.

Stack: Laravel 12, Excel export, PDF reports

Jane — AI Order Assistant

AI Automation · AI agent · 2026

An AI agent that runs end-to-end e-commerce and WhatsApp orders — cupcakes, catalogue and physical goods — handling payment, delivery and status updates, then reporting order status straight to the business owner.

Stack: Claude API, WhatsApp integration, Laravel

Jawahir — AI Customer Service

AI Customer Service · AI agent · 2026

An AI agent that handles client-facing sales and support questions on a brand's website, learning from and escalating to partner teams whenever a query falls outside its knowledge.

Stack: Claude API, web chat widget, Laravel

Let's talk
